PRODUCT CATALOG

01

BAKELITE SHEET & ROD

- Excellent Electrical Insulation
- High Mechanical Strength
- Heat & Moisture Resistant
- Widely used in Electrical & Industrial Applications

02

FIBER GLASS EPOXY SHEET & ROD

- High Mechanical Strength
- Excellent Electrical Properties
- Chemical & Corrosion Resistant
- Suitable for High Temperature Applications

03

ELECTRICAL RUBBER MAT ISI MARK

- High Dielectric Strength
- Anti-Slip Surface
- Durable & Long Lasting
- ISI Mark Certified for Safety & Reliability

PRODUCT CATALOG

04

SINDHANIO SHEETS & RODS

- Excellent Dielectric Properties
- High Mechanical Strength
- Heat & Moisture Resistant
- Suitable for Electrical Panels, Motors & Transformers

05

MICA SHEETS & TAPES

- High Temperature Resistance
- Excellent Dielectric Strength
- Flame Retardant
- Ideal for Heaters, Transformers & Electrical Insulation

06

TEFLON SHEETS & RODS

- Chemical & Corrosion Resistant
- Low Friction Surface
- High Temperature Performance
- Ideal for Sealing, Gaskets & Electrical Insulation

07

P.T.F.E CLOTHS

- Non-Stick Surface
- Chemically Inert & Durable
- Heat Resistant
- Used in Conveyor Belts, Sealer & Industrial Linings

PRODUCT CATALOG

08

HEAT SHRINK SLEEVES HT & LT

- High Dielectric Strength
- Flame Retardant
- Excellent Insulation
- Available in HT (High Temp) & LT (Low Temp) Variants
- Shrink Ratio 2:1, 3:1

09

PVC SLEEVES

- Excellent Electrical Insulation
- Flexible & Durable
- High Abrasion Resistance
- Resistant to Oils, Acids & Alkalis
- Available in Various Sizes & Colors

10

PVC HEAT SHRINK SLEEVES

- Flame Retardant
- Excellent Mechanical Protection
- Shrink Ratio 2:1
- Smooth Finish & Flexible
- Ideal for Wire Harnessing & Cable Insulation

11

SILICON SLEEVES

- High Temperature Resistance
- Excellent Flexibility
- Ozone, UV & Weather Resistant
- Non-Toxic & Non-Hazardous
- Suitable for Electrical & Industrial Applications

PRODUCT CATALOG

12

CHEQUERED RUBBER SHEETS

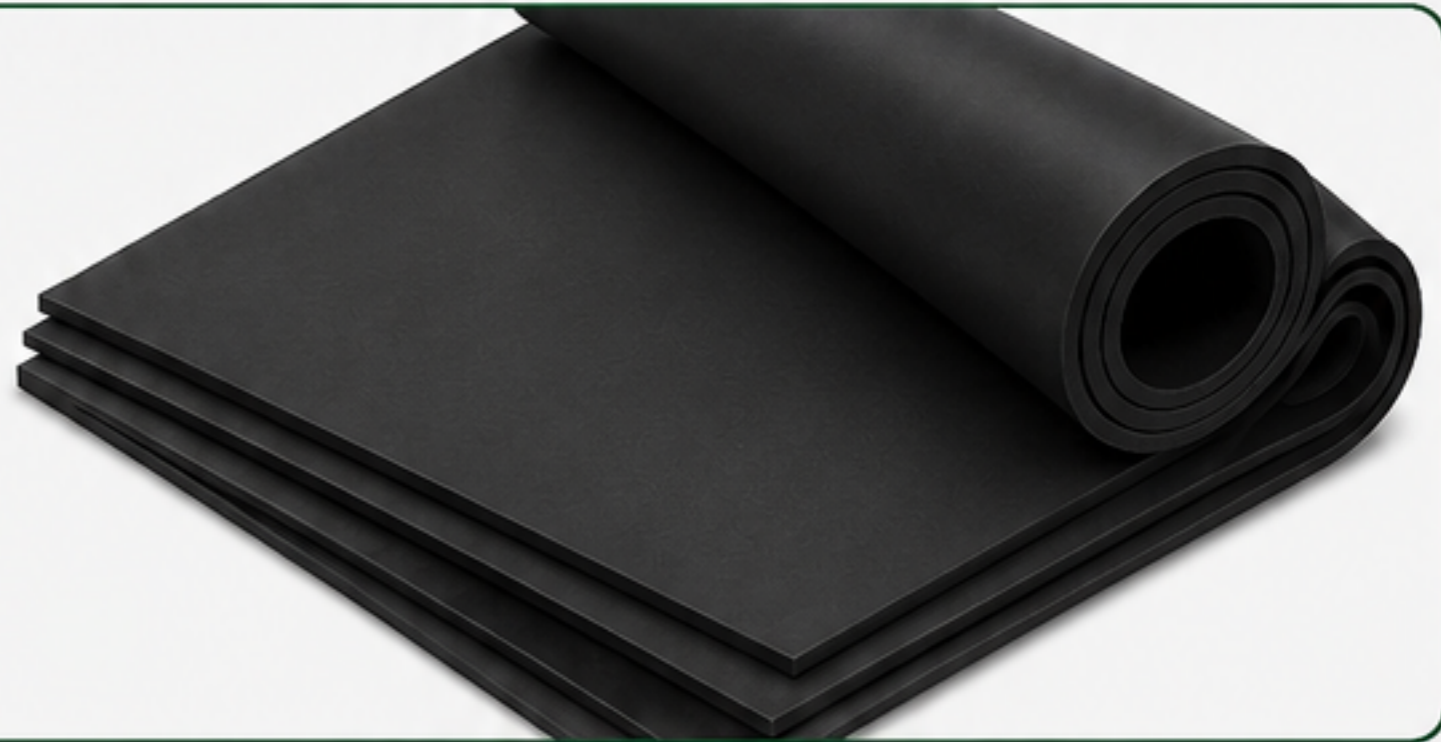

- Thickness: 2mm to 12mm
- Anti-Slip Surface
- High Durability & Strength
- Excellent Wear & Tear Resistance
- Widely used in Industrial Flooring, Walkways & Ramps

13

NEOPRENE RUBBER SHEETS

- Thickness: 1mm to 25mm
- Excellent Weather & Ozone Resistance
- Good Chemical & Oil Resistance
- High Tensile Strength & Flexibility
- Ideal for Gaskets, Seals, & Industrial Applications

14

SPONGE RUBBER SHEETS

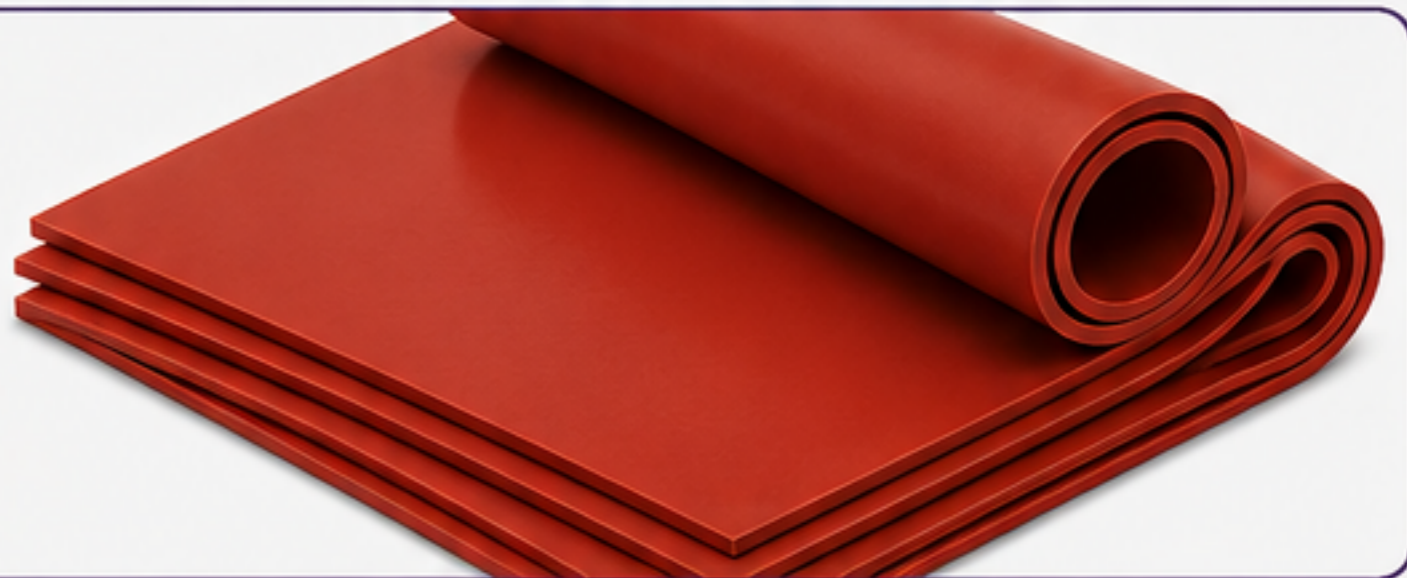

- Thickness: 3mm to 50mm
- Lightweight & Compressible
- Excellent Shock Absorption
- Good Thermal & Sound Insulation
- Used in Sealing, Cushioning & Vibration Control

15

SILICONE RUBBER SHEETS

- Thickness: 1mm to 10mm
- High Temperature Resistance (up to 250°C)
- Excellent Electrical Insulation
- Chemical, Ozone & UV Resistant
- Ideal for Gaskets, Seals & High Temperature Applications

16

ACRYLIC SHEETS & RODS & TUBES

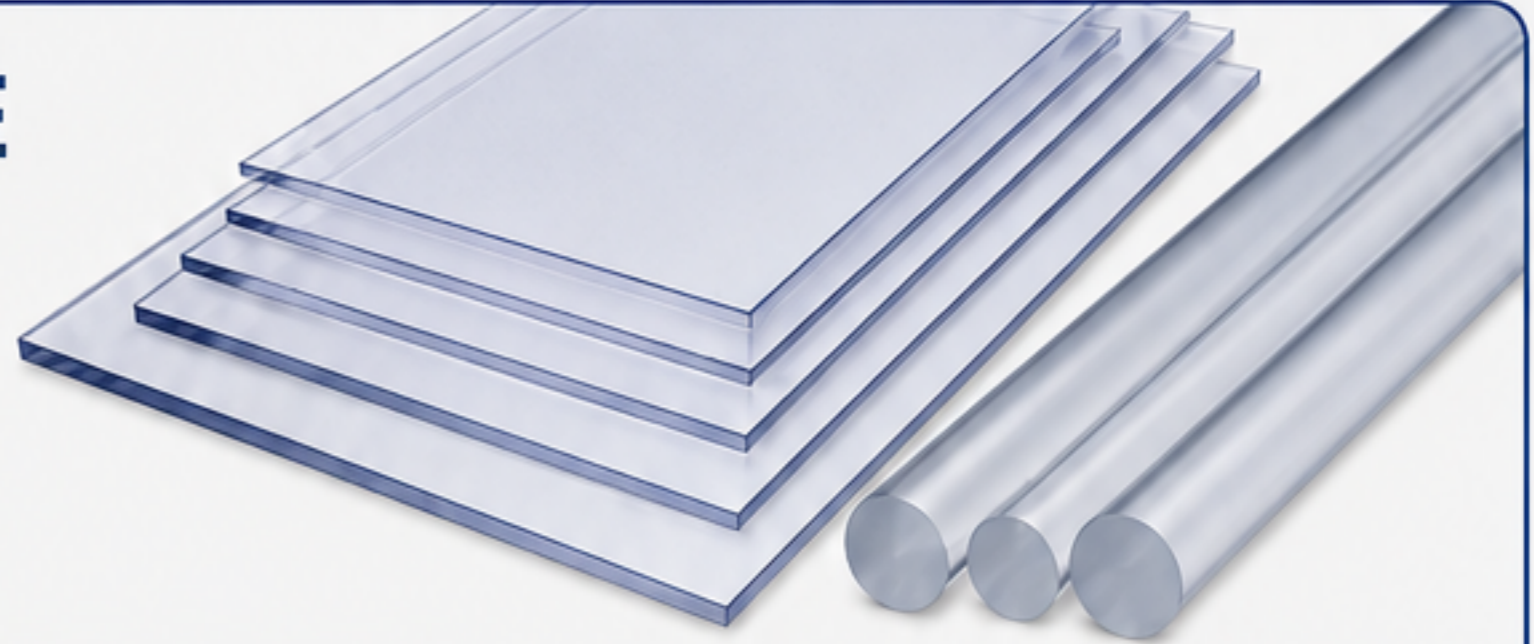

- Excellent Optical Clarity
- High Impact Strength
- Weather & UV Resistant
- Easy to Fabricate & Machine
- Available in Clear & Colored Options

17

POLYCARBONATE SHEETS & RODS

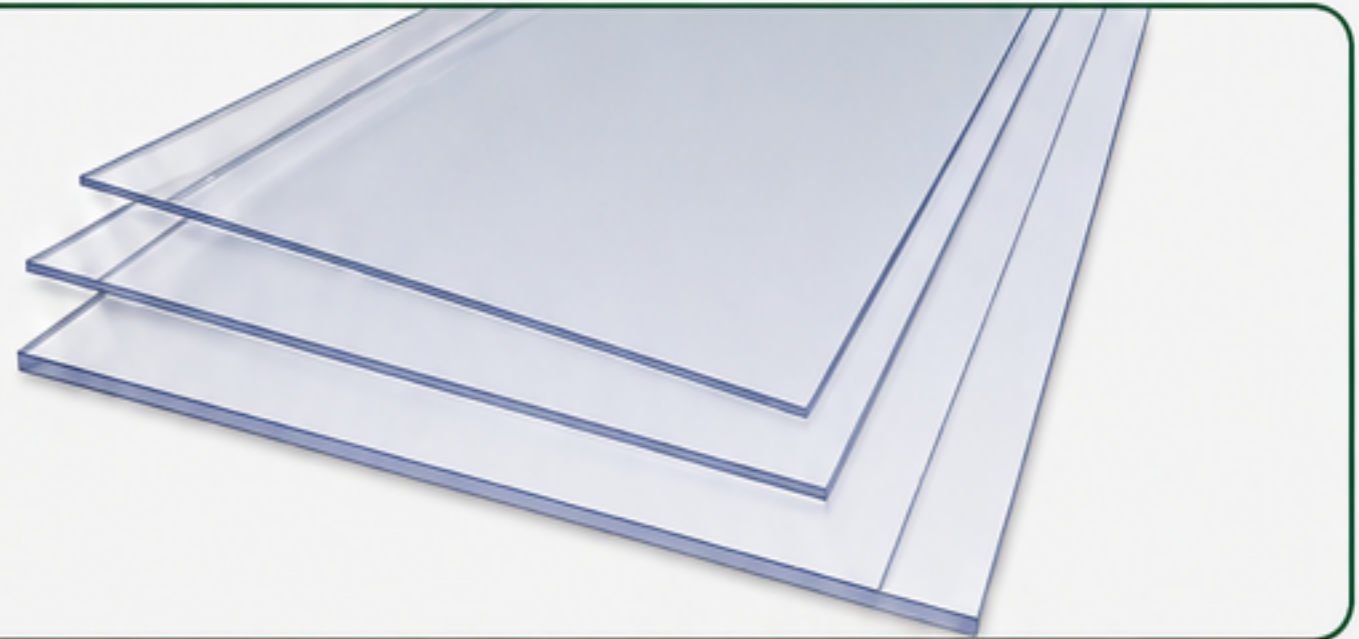

- High Impact Resistance
- Excellent Thermal Stability
- Good Electrical Insulation
- Self Extinguishing
- Ideal for Industrial & Safety Applications

18

PVC TRANSPARENT SHEETS

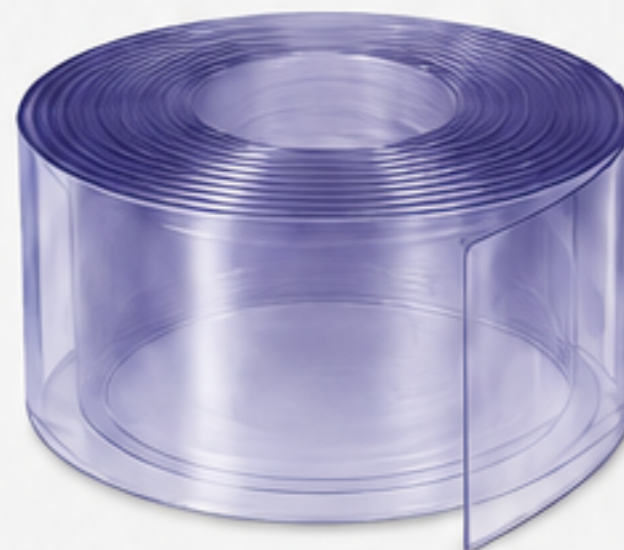

- High Transparency & Clarity
- Chemical & Corrosion Resistant
- Easy to Cut, Bend & Weld
- Good Electrical Insulation
- Suitable for Protective Covers, Partitions & Signage

19

PVC CURTAINS SHEETS

- Flexible & Durable
- Excellent Transparency
- Weather & UV Resistant
- Overlap Design for Better Insulation
- Ideal for Doors, Partitions & Temperature Control

PRODUCT CATALOG

20 DERLIN SHEETS & RODS

- High Mechanical Strength
- Low Friction & Wear Resistant
- Excellent Dimensional Stability
- Good Chemical & Moisture Resistance
- Ideal for Precision Parts, Gears, Bushes & Bearings

21 NYLON SHEETS & RODS

- High Strength & Toughness
- Excellent Wear & Abrasion Resistance
- Low Coefficient of Friction
- Good Chemical Resistance
- Suitable for Industrial, Mechanical & Engineering Applications

22 POLYPROPYLENE (PP) SHEETS & RODS

- Excellent Chemical Resistance
- Lightweight & Durable
- High Impact Strength
- Good Electrical Insulation
- Ideal for Chemical Tanks, Linings, Packaging & Fabrication

23 METLON SHEETS & RODS

- Very High Mechanical Strength
- Excellent Wear & Abrasion Resistance
- Low Friction & Noise Reduction
- Good Dimensional Stability
- Ideal for Heavy Duty Industrial, Automotive & Engineering Parts

PRODUCT CATALOG

24

PEEK SHEET & RODS

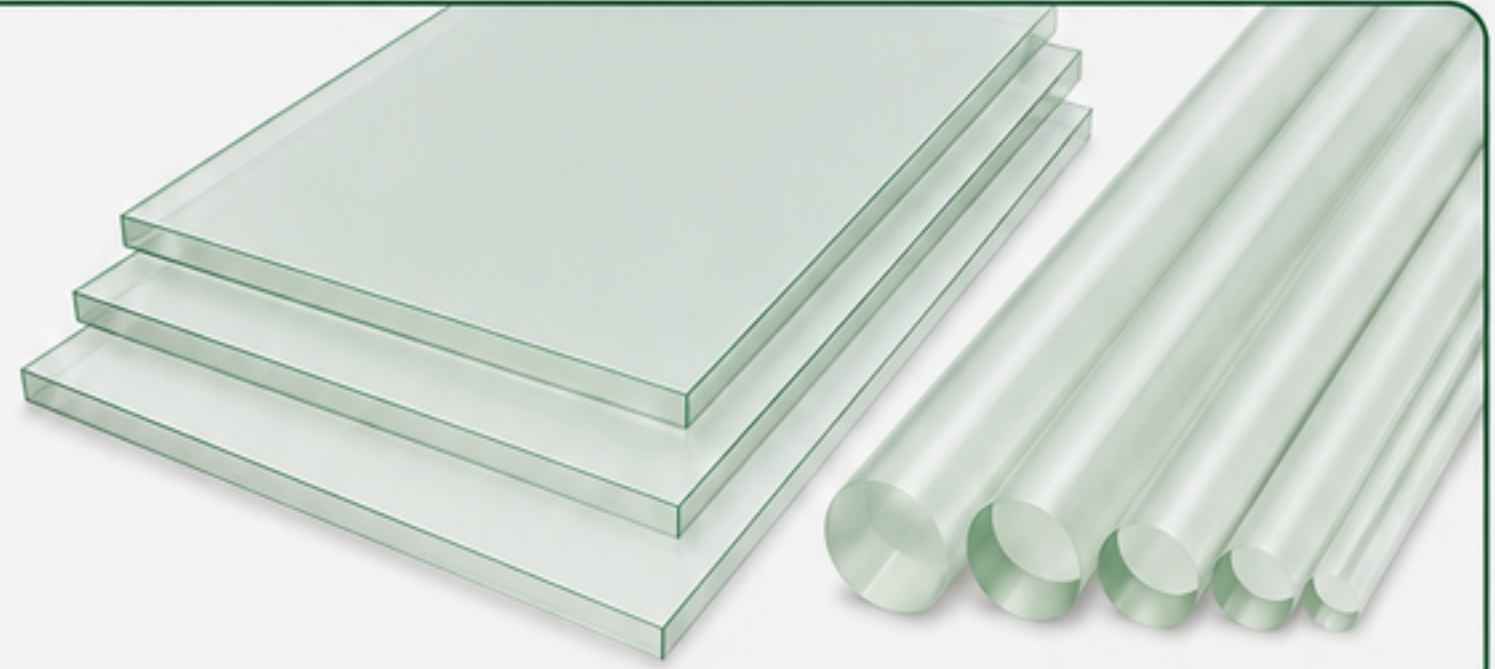

- Exceptional Mechanical Strength
- High Temperature Resistance (up to 250°C)
- Excellent Chemical & Wear Resistance
- Flame Retardant (UL 94 V-0)
- Ideal for Aerospace, Automotive, Semiconductor & Medical Applications

25

PET RODS AND SHEETS

- Excellent Dimensional Stability
- High Strength & Stiffness
- Good Sliding Properties & Wear Resistance
- Low Moisture Absorption
- Widely used in Bearings, Gears, Machine Parts & Electrical Components

26

UHMWPE SHEETS & RODS

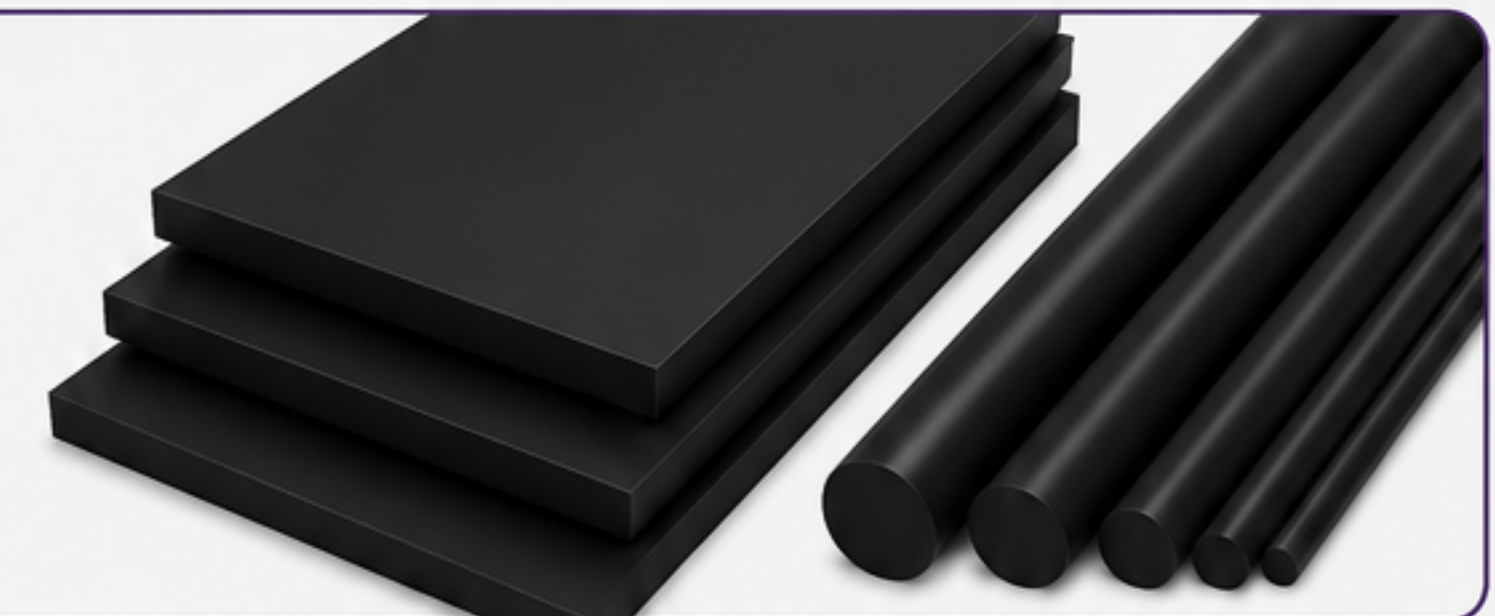

- Ultra High Molecular Weight Polyethylene
- Excellent Wear & Abrasion Resistance
- High Impact Strength & Toughness
- Low Coefficient of Friction
- Ideal for Conveyor Systems, Chutes, Guides, Wear Strips & Food Industry

27

POM RODS AND SHEETS

- Excellent Dimensional Accuracy
- High Mechanical Strength & Stiffness
- Low Friction & Good Wear Resistance
- Excellent Machinability
- Widely used in Gears, Bearings, Valves, Pumps & Precision Components

28

DENSIFIED WOOD (PERMALI) SHEETS & RODS

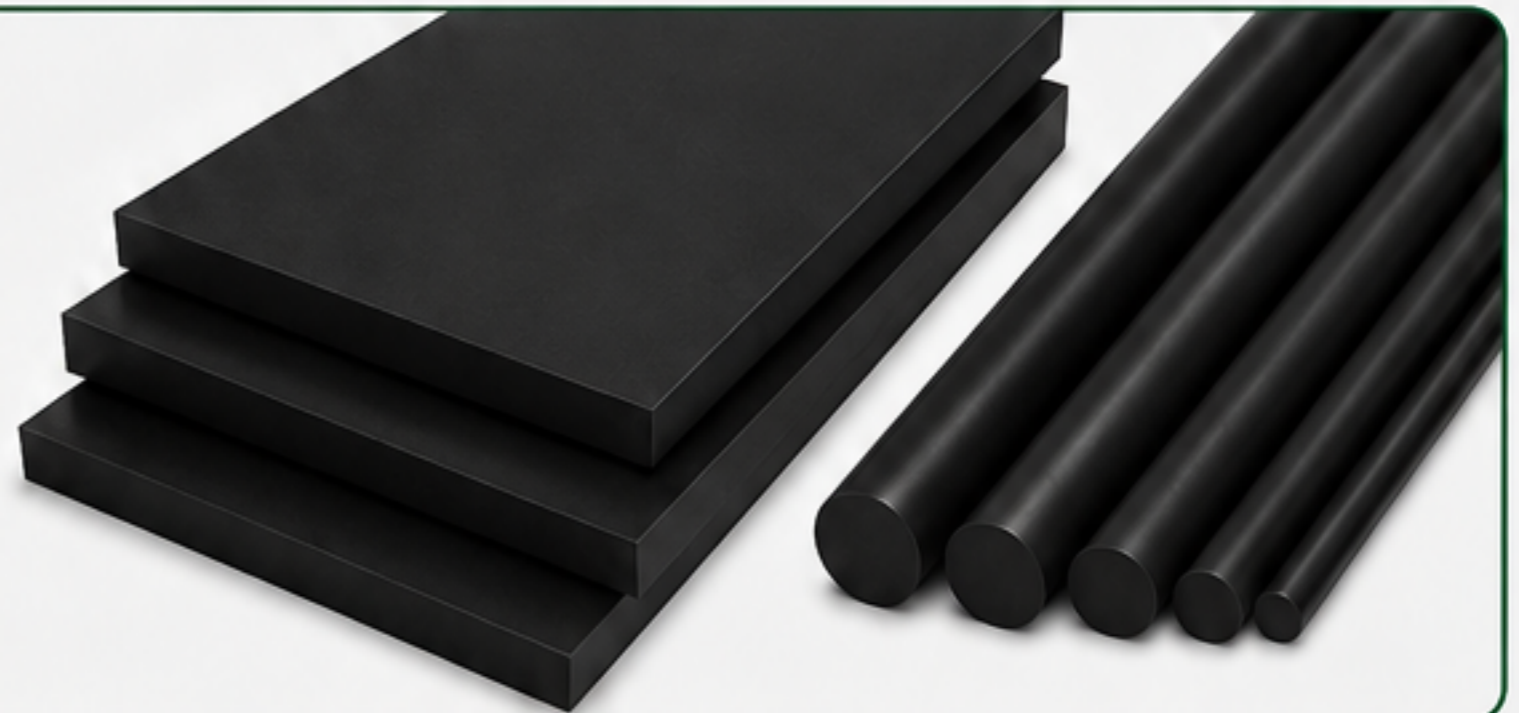

- High Mechanical Strength
- Excellent Wear & Abrasion Resistance
- Low Moisture Absorption
- Good Machinability & Dimensional Stability
- Ideal for Gears, Bushes, Bearings, Wear Plates & Industrial Components

29

EBONITE SHEETS & RODS

- Excellent Electrical Insulation
- High Mechanical Strength
- Low Water Absorption
- Good Machinability
- Chemical & Corrosion Resistant
Ideal for Electrical, Mechanical & Industrial Applications

30

BRAKE LINING METTALIC & NON METALIC

- High Friction Coefficient
- Heat & Wear Resistant
- Excellent Braking Performance
- Long Service Life
- Available in Various Grades
- Suitable for All Types of Vehicles & Industrial Braking Systems

31

HDPE SHEETS & RODS

- High Impact Strength
- Excellent Chemical Resistance
- Low Moisture Absorption
- Good Sliding Properties
- Easy to Fabricate & Weld
- Ideal for Food Industry, Chemical, Water Treatment & Engineering

PRODUCT CATALOG

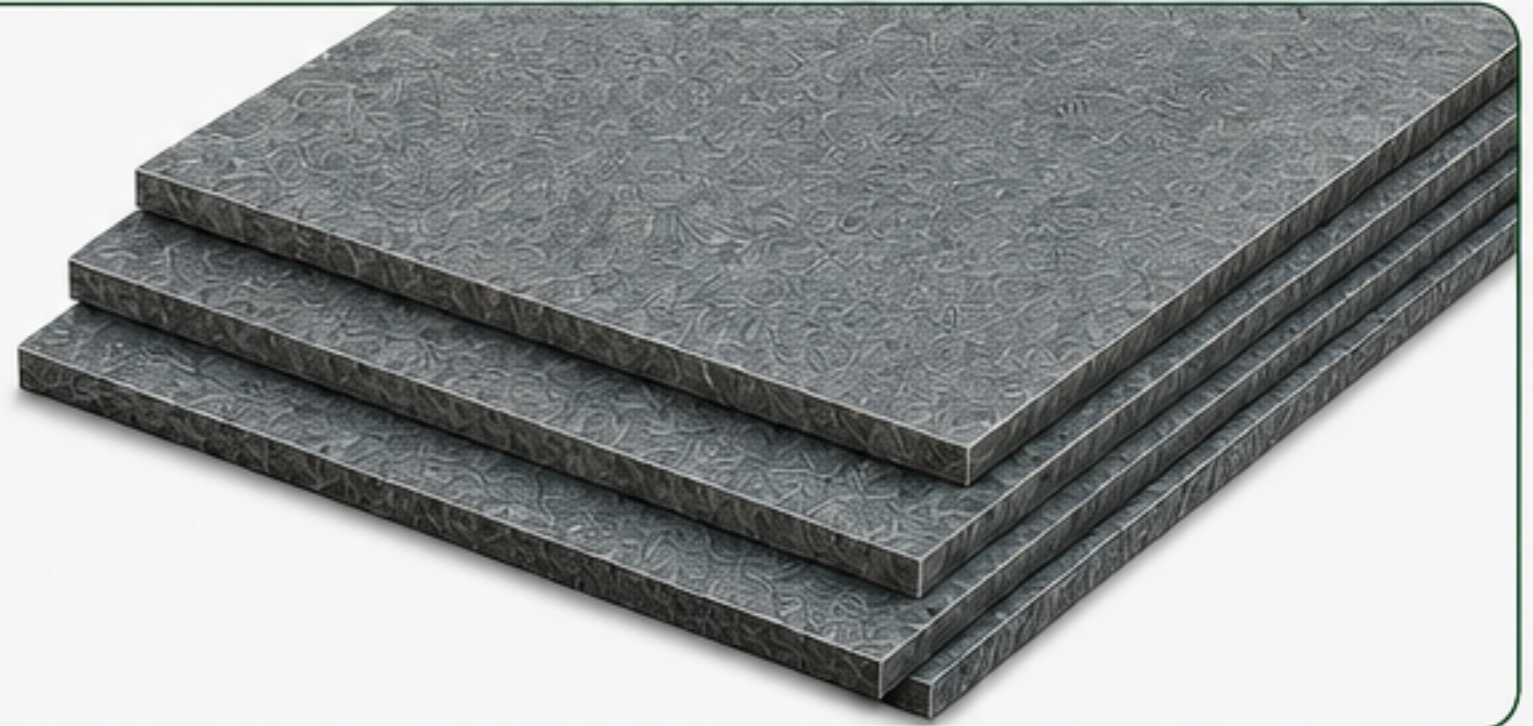

32 RUBBERISED CORK SHEETS

- Excellent Sealing & Cushioning
- Good Compressibility
- High Resistance to Wear & Tear
- Vibration & Sound Absorption
- Resistant to Oils, Water & Many Chemicals
- Widely used in Gaskets, Flanges, Valves & Industrial Applications

33 ASBESTOS SHEETS

- Excellent Heat & Chemical Resistance
- High Tensile Strength
- Good Sealing Properties
- Suitable for High Temperature Applications
- Widely used in Gaskets, Packing, Electrical & Thermal Insulation

34 ELECTRICAL RUBBER HAND GLOVES

- High Dielectric Strength
- Protects from Electric Shock
- Tested as per IEC 60903 Standards
- Ozone, Acid & Oil Resistant
- Comfortable Fit & Easy to Use
- Widely used in Electrical Maintenance, Substations & Industrial Applications

35 VULCANISED RED FIBRE SHEETS

- High Mechanical Strength
- Excellent Wear & Tear Resistance
- Good Impact & Shock Resistance
- Electrical Insulation Properties
- Widely used in Electrical, Automotive & Industrial Applications

PRODUCT CATALOG

36 OVERHEAD LINE COVER

- Protects Overhead Power Lines from Accidental Contact
- Prevents Short Circuits & Flashovers
- High Dielectric Strength
- Weather, UV & Ozone Resistant
- Easy to Install & Remove
- Suitable for Indoor & Outdoor Use

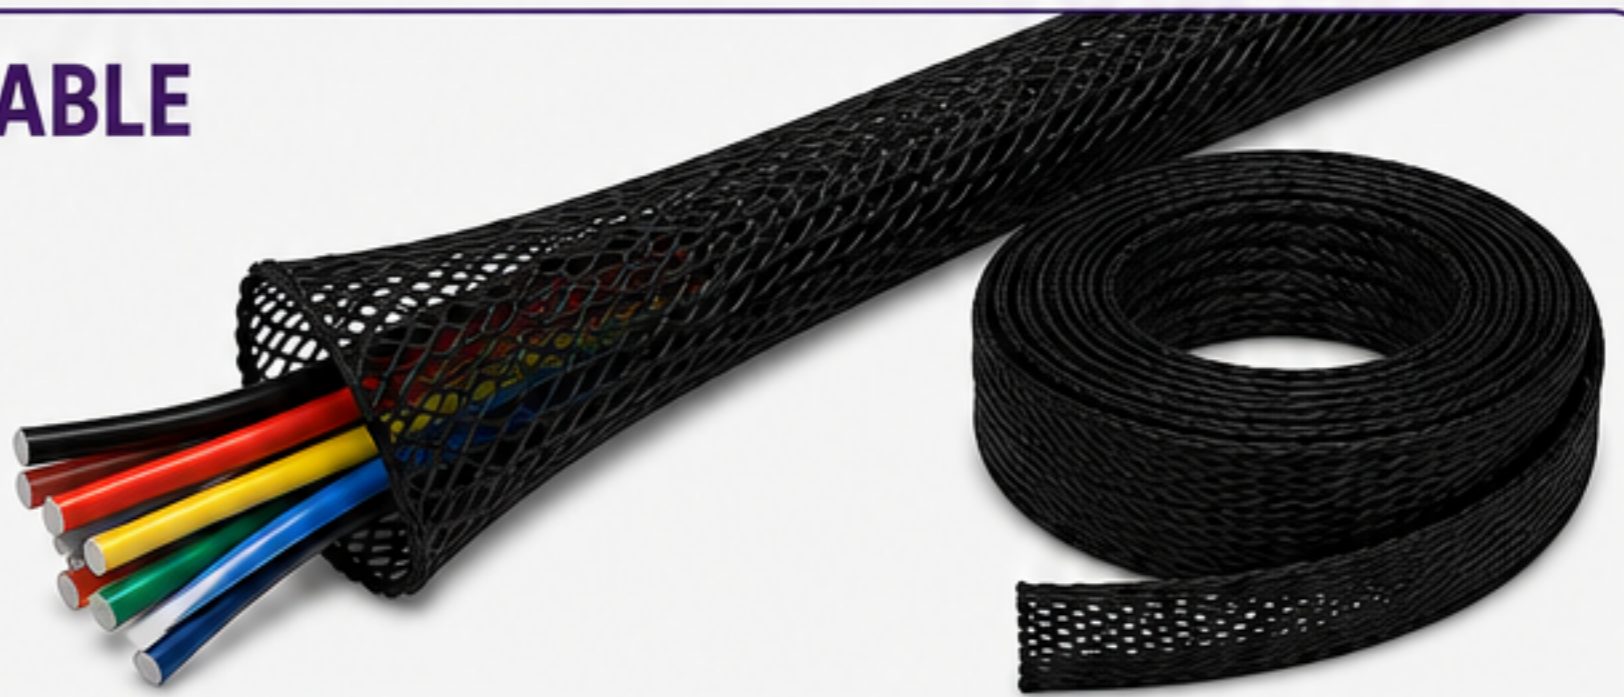

37 SILICONE COATED FIBERGLASS SLEEVES

- Excellent High Temperature Resistance
- Continuous Working Temperature up to 260°C
- Good Dielectric Strength
- Flame Retardant
- Flexible & Lightweight
- Resistant Oils, Chemicals & Moisture
- Ideal for Wire & Cable Protection

38 NYLON EXPANDABLE SLEEVING

- Expandable & Flexible
- Abrasion Resistant
- Provides Excellent Wire & Cable Protection
- Easy to Install
- Lightweight & Durable
- Ideal for Automotive, Industrial & Electronic Applications

39 SPIRAL SLEEVES

- Organizes & Protects Cables and Hoses
- Flexible & Easy to Install
- Abrasion & Impact Resistant
- Reusable
- Helps in Cable Management
- Available in Various Sizes & Colours
